love of it and to gratify ambition, not for pecuniary gain. He doubtless spent ten times as much money in politics as he ever derived from it. He was a man of rare executive ability, and was a remarkable success as a campaign manager. He it was who organized and carried out the great presidential fraud. But for him Tilden would now be president. CHANDLER was a bluff, hearty, generous man. He was personally popular and deservedly so. He had force, and ability and zeal, but little culture or polish. He was born for rough and troublous times. As a partisan he was bitter, malignant, extreme. His influence as a public man was bad. Since MORTON'S death he was the leading exponent of the Eternal Gospel of Hate between the sections. He was a foe to national union, and the country will be better off by reason of his death, for the worst foes the union has to-day are those who seek to keep alive the bitterness and passions of a war which ended fourteen years ago.

We publish below a list of towns where the DAILY SENTINEL is regularly delivered to subscribers with the number of papers delivered in each town. It would be well for advertisers to study these figures. No such advertising medium as the SENTINEL has ever been offered to Fort Wayne business men.

Benezet of Colgate & Co., was examined and testified that he had no recollection of purchasing Fort Wayne stock for Tilden, but he might have done so.

King George, of Greece, in opening the assembly, said that negotiations with Turkey were progressing favorably. At Rome Cardenili was convicted of the murder of Capt. Paddabeni and sentenced to death. Cardenili's mistress, the captain's widow, was found guilty as an accomplice and sentenced to imprisonment for life.

It is rumored that England threatens unless the sultan carries out reforms in Asiatic Turkey to depose him and place his brother on the throne, the latter to be under the tutelary supervision of England, France and Austria. Russia sustains the sultan. The charges of extortion against United States Clerk Ambrose at Cincinnati were dismissed Saturday.

F. W. Phillips, a salesman at Burkhardt's store in Detroit has been arrested on a charge of burglarizing the store. At Leoto, Miss. Harry Ely and one Atkins had a row Friday, in which Ely was killed and Atkins dangerously wounded.

Young was arrested. The two young men were until recently bosom friends.

Warrants were issued Saturday for the arrest of all persons who are known to have been engaged in the lynching of Bill Young at Leroy, Mo., last Wednesday. Warrants were issued at the instance of Young's wife, J. C. Coffman, one of Young's lawyers, from Toledo, who was Young's house when the mob surrounded it, and who has been missing since, appeared Saturday at Memphis, Mo., en route home. The marshals have also sworn out warrants against the officers of the state courts for interference with federal officers, and with a squad of soldiers from Fort Elliott have gone to make the arrests. The North Pole and Equator are not more widely distinct than the standard tonic, stimulant and alterative, Hostetter's Stomach Bitters, and the cheap and very local bitters which unscrupulous vendors foist upon the unwary as a medicinal preparation with named properties. The latter are usually composed in the main of half rectified alcohol, with some wretched drug combined to disguise their real flavor and are perfectly ruinous to the coats of the stomach. Hostetter's Bitters, on the contrary, has for its basis choice spirits of absolute purity, and this is modified and combined with medicinal extracts of rare excellence and botanical origin, which invigorate and regulate the bowels, stomach and liver. They effect a radical change in the disordered physical economy, which is manifested by a speedy improvement in the general health.

ZACH CHANDLER. His Remains Taken from Chicago to Detroit—Official Action on His Death—Demonstrations in Honor of His Memory. On Saturday, at Chicago, the vast republican organizations jointly adopted resolutions expressive of their sense of the loss the nation has sustained in the death of Senator Chandler, and eulogizing him for patriotism, courage, integrity and statesmanship.

The governor of Michigan issued an order announcing the sad event, paying a glowing tribute to the deceased, and ordering that all proper honors be paid to his memory, the state officers be closed, flags displayed at half-mast, etc.

Mayor Langdon, of Detroit, issued a call for a citizens' meeting to occur today noon, to take proper action. At Chicago, on Sunday, the last sad rites were performed over the body at the Grand Pacific, Prof. Sewing officiating. The services consisted simply of a prayer and reading from the scriptures. The casket was then borne out of the hotel, Messrs. John B. Drake, Geo. R. Davis, Jesse Spaulding, Wm. Aldrich, Hiram Barber, Geo. M. Beers and D. Collier, acting as pall bearers, and a detail of the 1st regiment officiating as guard. A procession comprising public officials, military and civic organizations formed and followed the remains to the depot, the bands playing the dead march from Saul and other funeral dirges. The streets through which the procession passed were filled with people. Among the mourners were Govs. Cullom and Oglesby, Emory Storrs and Robt. T. Lincoln. At 9:30 a. m. the special train appropriately draped left the depot with the Detroit and Chicago committees en route.

The council should to-morrow evening advance the compensation of the water works trustees to a fair and reasonable figure.

THE RIP VAN WINKLES of Columbia street are now receiving a little attention from the country papers of northern Indiana. The R. V. W.'s haven't been so badly stirred up since the Indian troubles two or three generations ago.

The New York election will take place to-morrow. We have strong hopes of a democratic victory. The SENTINEL co-k has been well polished up, and is quite anxious to emerge from his retirement. He will probably do a little crowing on Wednesday.

THE GAZETTE tackles the water works question this morning and as usual displays assiduity. If the Gazette man will ask any manufacturer in the city if he proposes to use the water to be taken from wells, he will receive a negative answer. If this water is not fit for manufacturing purposes or for domestic uses (except to drink) there will not be enough revenue from the works to pay the salaries of the employees. What the SENTINEL said about the right of the canal company of the St. Joe water, has been affirmed in the decisions of the courts, which are certainly as good authority as the Gazette. JESSE L. WILLIAMS heartily agrees with the SENTINEL on this matter, for he says:

It is safe to place little reliance on waste of water through the feeder dam during low water season, and to assume that all will flow down the feeder according to the original understanding when the right of the entire water was acquired by the state, and the compensation or damage was legally adjusted.

In the death of ZACH CHANDLER the republican party loses its most skillful, unscrupulous and dangerous politician. With the exception of MORTON—whom CHANDLER in many respects resembled—the republicans never had a leader to equal CHANDLER in the qualities we have named. The Michigan senator was personally honest; he engaged in politics for the

love of it and to gratify ambition, not for pecuniary gain. He doubtless spent ten times as much money in politics as he ever derived from it. He was a man of rare executive ability, and was a remarkable success as a campaign manager. He it was who organized and carried out the great presidential fraud. But for him TILDEN would now be president. CHANDLER was a bluff, hearty, generous man. He was personally popular and deservedly so. He had force, and ability and zeal, but little culture or polish. He was born for rough and troublous times. As a partisan he was bitter, malignant, extreme. His influence as a public man was bad. Since MORTON's death he was the leading exponent of the eternal Gospel of Hate between the sections. He was a foe to national union, and the country will be better off by reason of his death, for the worst foes the union has to-day are those who seek to keep alive the bitterness and passions of a war which ended fourteen years ago.

We publish below a list of towns where the DAILY SENTINEL is regularly delivered to subscribers with the number of papers delivered in each town. It would be well for advertisers to study these figures. No such advertising medium as the SENTINEL has ever been before to Fort Wayne business men.

THE HON. JESSE L. WILLIAMS is authority on the question of power for water works. Here is what he says:

As our water power. Water power, with its low well employed turbine wheels, will be, by the three mills twenty-five head, and other smaller would be the rule, manufactures so vast steam the exception, unable to our city. Why not let the water for three reasons: the chimney alone and canal feeder becomes have our pumping station at the head of the city, as in auxiliary in furnishing the water power of the city, and avoid all risks of the waste of steam. The dam.

Further light on the amount saved by the use of water power, shows that the saving by it, house and all, has been underrated, and should in my judgment determine the city to the use of water power.

The saving, at this proportion, in pumping 2 1/2 millions of gallons daily to the head required for city supply at Port Wayne, would be \$100,000 per year. At Saratoga Springs the saving in pumping by water power is \$2 per day.

This difference in favor of pumping by water power, moreover, be constantly on the increase, the greater the quantity of water pumped. To use the words of Mr. McKee, engineer of the Montreal works: Every additional gallon of water elevated and every additional foot it is lifted by steam has to be paid for over the counter.

This may be a little bit confusing, but the reader may pay his money and take his choice.

Couriers from Merritt's camp report all quiet. On the 29th an Indian went into the camp to have a peace talk. He was informed that Merritt had no authority to make peace. He then gravely told the general that if he would give up his arms, ammunition, horses and mules, he would be allowed to leave with his men. After the Indian left the camp numerous signal fires were observed in the neighborhood of the camp. Two companies of infantry will be stationed at Snake River to protect the horses and furnish escorts for wagon trains with supplies for Merritt.

The North Pole and Equator Are not more widely distanced than the standard tonic, stimulant and alterative, Hostetter's Stomach Bitters, and the cheap and fiery local bitters which unscrupulous vendors tout upon the unwary as medicated preparations with remedial properties. The latter are usually composed in the main of half rectified alcoholic extracts, with some writhed drug combined to disguise their real flavor and are perfectly ruinous to the coats of the stomach. Hostetter's Bitters, on the contrary, has for its basic choice spirits of absolute purity, and this is modified and combined with medicinal extracts of rare excellence and botanical origin, which both invigorate and regulate the bowels, stomach and liver. They effect a radical change in the disordered physical economy, which is manifested by a speedy improvement in the general health.

ADVERTISE IN THE DAILY SENTINEL.

ZACH CHANDLER.

His Remains Taken from Chicago to Detroit. Official Action on His Death—Demonstrations in Honor of His Memory.

On Saturday, at Chicago, the various republican organizations jointly adopted resolutions expressive of their sense of the loss the nation has sustained in the death of Senator Chandler, and eulogizing him for patriotism, courage, integrity and statesmanship.

The governor of Michigan issued an order announcing the sad event, paying a glowing tribute to the deceased, and ordering that all proper honors be paid to his memory, the state offices be closed, flags displayed at half-mast, etc.

Mayor Langdon, of Detroit, issued a call for a citizens' meeting to occur to-day noon, to take proper action.

At Chicago, on Sunday, the last and rites were performed over the body at the Grand Pacific, Prof. Swing officiating. The services consisted simply of a prayer and reading from the scriptures. The casket was then borne out of the hotel, Messrs. John, B. Drake, Geo. R. Davis, Jesse Spaulding, Wm. Aldrich, Hiram Barber, Gen. M. Beern and J. Collier, acting as pall bearers, and a detail of the 1st regiment officiating as guard.

A procession comprising public officials, military and civic organizations formed and followed the remains to the depot, the bands playing the dead march from Saul and other funeral dirges. The streets through which the procession passed were filled with people. Among the mourners were Govs. Cullom and Oglesby, Emory Storrs and Robt. T. Lincoln.

At 9:20 a. m. the special train appropriately draped left the depot with the Detroit and Chicago committees on board.

The train reached Detroit at 6 p. m. The Detroit committee consisted of Govs. Baldwin and Bagley, Congressman Newberry, James F. Joy, Alex. Lewis and other eminent citizens. The remains were escorted from the depot to the senator's late residence by the unions, military organizations and an immense concourse of citizens.

Mrs. Chandler has received telegrams of condolence from President Hayes and members of the cabinet, Gen. Grant, Gov. Crosswell, of Michigan, Senator Blaine and many other eminent men.

The news created a profound sensation at Washington. President Hayes issued a suitable order directing the closing of the public buildings on the day of the funeral. The interior department, of which Mr. Chandler was formerly secretary, was promptly draped in mourning.

Cuticura

REMEDIES. The success of the use of these great remedies in the treatment of affections of the skin and scalp with loss of hair is astounding. From every part of the country come the most grateful acknowledgments of what might be called miraculous cures. Messrs. Weeks & Potter extend their thanks to all who have spoken a good word for CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT, and will thankfully receive reports of new cases wherever they occur.

SALT RHEUM ON BODY

And Limbs. Obligated to Go About on Crutches. A Wonderful Cure.

Messrs. Weeks & Potter: Gentlemen—In justice to those who may suffer as I have suffered, and as a grateful acknowledgment of the cure I have received from the use of the CUTICURA REMEDIES, I voluntarily make the following statement:

I have had Salt Rheum on my body and on one leg in a very aggravated form for eight years. No kind of treatment, medicine, or doctors, during this time, did me any permanent good. My friends in Maine and elsewhere knew that I had been a great sufferer, and that my condition was such that I could not make the use of CUTICURA, my limbs were so raw and in despair of ever being able to find a cure, or even a relief. I then used CUTICURA, and to the surprise of all, I began to feel better. I could not bear my weight on it without the skin cracking and bleeding, and was obliged to go on crutches. I commenced to use the CUTICURA in April, and once realized its beneficial effects. It gradually drew the inflammation and humor to the surface and, as fast as it appeared, healed it. At times large quantities would come to the surface, causing burning heat, inflammation, swelling and itching, which, under the constant use of CUTICURA, would rapidly subside and heal. Each time these outbreaks occurred, and less severe and finally disappeared, leaving no mark on the skin. I used CUTICURA five months and took the RESOLVENT most of the time, which were the only remedies I used. I think the CUTICURA is a very strengthening and purifying medicine to take in such extreme cases as mine, because the disease is so weakening to the system.

Very gratefully yours, MRS. ASA R. BROWN.

FIVE YEARS OLD.

The Arion Society Has a Jolly Birthday Party.

Wirth and Melody Rule the Hour—A Delightful Affair.

The Arion Society of this city celebrated its fifth anniversary last night by a grand social entertainment at its hall. The hall was tastefully decorated and was crowded with representatives of the best German society of the city, together with a few Americans who were honored with invitations to the affair. The members and guests were seated at tables which ran the length of the hall and were served with copious draughts of foaming lager, to which ample justice was done.

The exercises were opened with a fine chorus by the Arion followed by a few remarks in German by Emil Haberkorn, president of the society, who sketched its history briefly.

Dr. Henchling, the first president of the society, was then called upon and responded briefly but felicitously, concluding by calling upon all present to drink to the society, which was done with a gusto.

Prof. Wellenstein and Schultz then executed in superb style a beautiful duet, after which another chorus was rendered.

Herman Wolf sang a solo in pleasing style and responded to an encore.

After another chorus Mr. Fleury, a capital performer from the Olympic, rendered two comic character songs—one English and one German—in costume, which fairly brought down the house.

The Hon. R. C. Bell being present was called upon and responded in one of his happy and brilliant little speeches, which was heartily cheered.

Then came a splendid collation, served by Fox.

At 12 o'clock the floor was cleared, and for an hour or two merry feet and graceful forms kept time in the mazy dance to most inspiring strains of music.

All in all the affair was a most delightful one in every respect. The Arion Society, which has been in existence for five years, is the leading social and musical organization of the city. Its membership comprises sixty-five of our leading German citizens, and it is doing a good work in popularizing high class music and educating our people up to a taste for classical music.

The SENTINEL understands that the society will give Sunday evening entertainments, similar to that of last evening, during the season just opening.

AMUSEMENTS.

THE BIG FOUR MINSTRELS.

This company appeared at the Academy Saturday evening before a meagre audience, and gave an excellent entertainment, which gave the best of satisfaction, as was testified by shouts of laughter from the rising of the curtain to the falling thereof.

MAY FISK'S BLONDES.

This well-known company will appear at the Academy to-night in one of their popular entertainments. The "blondes" usually prove especially attractive to bald-headed men and such, who will doubtless be out in force to-night. The company is said to contain some fine talent.

CRAFTY CRACKSMEN.

They Get Their Work in on The Residence of Mrs. Hamilton.

Between 9 and 10 o'clock last night the residence of Mrs. Emerine Hamilton, known as the old Hamilton home, was entered by burglars, who succeeded in capturing a gold watch, about twenty dollars in money and several articles of jewelry.

The first that was known of the presence of thieves was a noise heard by the hired girl as she was about retiring for the night. She at once gave the alarm, but the theft had already been committed and the burglars easily escaped in the same way that they entered the building, viz: through a window leading out upon a second-story porch, and thence by the post to the ground.

The police are diligently at work searching for some clue to the robbers, but thus far have been unsuccessful.

On Sunday morning a less successful attempt was made on the drug store of George Schott, on the corner of Barr and Washington streets, where they had cut through a shutter, and would soon have obtained an entrance through the sash but that they were frightened away by a passer by.

THE RAILROADS.

A Wabash train killed a valuable colt near Lafayette, on Saturday.

The case of J. C. Bowser vs. the Fort Wayne, Muncie and Cincinnati Railroad Company, which has been pending in the United States courts for several years, was dismissed at Indianapolis last week.

An Incipient Blaze.

Saturday night, as Messrs. Coombs, Morris & Bell were sitting in their office, a flame suddenly burst out almost under their feet, caused by the burning of the floor. Water was at once procured and dashed on the incipient blaze, and it was soon extinguished. It was then discovered that it caught from the grate and may possibly have been burning for an hour before it

was discovered, being between the floor, the damage to the floor, carpet and papers from fire and water will probably amount to \$50.

A Question.

To the Editor of the SENTINEL: Supt. Hillegass, do you intend to allow the Fort Wayne schools to rub a couple of days during the institute, contrary to law? Suppose you publish the law on that subject. X.

Meantime Rutter fled and was not apprehended till about two months ago, when he was arrested at Bedford, and brought back to jail at Nashville. His Trial for John Sheehy's Murder Still in Progress.

Another Batch of Important Evidence for the Defence.

The Wists Proven To Be a Very Bad Lot.

The Defendant's Case Being Constantly Strengthened.

AFTERNOON SESSION.
The evidence was resumed at 1.30 Saturday afternoon.

BERNARD G. GOEKE'S TESTIMONY.
My father lives five miles east of the city; he is a farmer and plasterer; I know what the general reputation of Jacob Wiest and his wife is as to truth and veracity; it is pretty bad; I live about two miles from Jacob Wiest.

Cross-examined—Am a single man; am not a bachelor; have known Jacob Wiest since about a year ago last spring; he lives in our neighborhood; when a man asks me where I stop when I go anywhere I think it is none of his damned business; have heard Mrs. Wiest and other ladies say that his reputation was bad; am affected with the piles, but it did not affect my memory; have heard different young ladies say they would not believe a word they said; my memory was all right, just as good as yours; whether I was engaged to Miss Wiest is none of your business; if you want to find her go to Kansas; Mrs. Wiest lives between one and three miles from Wiest; I didn't measure the distance; I never paid much attention to what was said; I don't know when Wiest was arrested; the conversation I had with Miss Wiest was some time in June; have heard of their bad reputation from pretty much all the neighborhood; I know nothing about the reputation of Mrs. Wiest; I am not a personal friend of Mrs. Wiest.

Re-direct—I never associated with Mrs. Wiest any more than Mr. Stratton has.

FRED. FRY'S TESTIMONY.
I live in Jefferson township; am a farmer and an engineer; have lived here about thirty-seven years; know Jacob Wiest; his reputation for truth was bad.

Cross-examined—I lived within three rods of him part of the time; he lived there about three or four months; James Kerns, his own brother-in-law, told me he was a bad man; they were not good friends; I cannot name any who said that his reputation was bad; am not prejudiced against Wiest.

Re-direct—I never heard a man say that he did believe him.

L. S. MAPLES'S TESTIMONY.
I reside at Maples; am acquainted with Jacob Wiest; he used to reside in the village of Maples about eight months ago; am acquainted with his reputation as for truth and veracity tolerably; it was bad.

Cross-examined—I have heard several persons speak of him—probably five or six; the country is well settled.

PHILIP BOHYER'S TESTIMONY.

I live in this city; am working for Coombs & Co.; I used to live in Maples; am acquainted with Jacob Wiest and also his reputation for truth and veracity; it was bad.

Cross-examined—I have heard perhaps a dozen speak of him as an untruthful man; I can name several; I have known Wiest for five or six years; we were not extraordinarily good friends.

THOMAS J. MEEGAN'S TESTIMONY.

I have lived in this city about twenty-three years; I am city editor of the *Gazette*; have been there about one year; I know the defendant; saw him on the 5th of July last on the corner of Main and Calhoun streets, between 4 and 5 p. m.

Cross-examined—Have been connected with the *Gazette* about one year, and before that was connected with the *Philadelphia Times* about two years; have been acquainted with Swayne about eight or nine years; have been acquainted with George Swayne for about the same length of time; know Mr. Walters and Mr. Bonter; conversed with Mr. Colerick and Mr. Walters about this case; am acquainted with all the members of the fire department; met Swayne, to the best of my recollection, between 4 and 5 on the evening of the 4th of July; am sure it was between 4 and 5 from the fact that I had other business at a set hour, which enables me to set the time; I did not meet John Swayne on the 3rd; I can remember the fact of meeting Swayne at that time because his arrest shortly afterwards surprised me, and impressed the fact of my meeting him on my mind.

WM. HILKER'S TESTIMONY.

Am employed at Olds's factory; am twenty-three years old; was born in Allen county; have lived here all my life; am acquainted with John Swayne; saw him on the 5th of last July on the corner of Calhoun and Berry streets between 3 and 4 o'clock. **Cross-examined**—I wasn't working on that day; I was working there about seven months; we were not running that day; before that I was working at the bus barn for about three years off and on; I was employed at the Broadway livery stable; I can't say how long; I can't say what I did before I went there; my father is employed in the Wabash shops; I have known Swayne about six or seven years; we were boys together; I have been acquainted with George Swayne about the same length of time; I am acquainted with Mr. Walters and knew he ran a saloon in this city; am not a member of the fire department, and have no relatives working there; am related to the Swaynes; I spoke to Mr. Colerick about the case and also to George Swayne; I

never worked for Mr. Walters; he was alone when I saw him and had his hands in his pocket; passed him there; I came down Calhoun street; I drank a glass of beer at Dukeman's and had been around town before that; drank one or two glasses of beer at Gerardin's; drank one or two glasses at Strodel's before that; did not drink over six or seven glasses that afternoon; did not look at the court house clock when I saw Swayne; it was about 3 o'clock when I left Strodel's; I went as far up as Columbia street and came back again and then it was that I met Swayne on the Avenue House corner; I was in at Gerardin's right after dinner; I was not drunk on the 4th; it would take about thirty or thirty-five glasses of beer to make me drunk; I did not look at any time-piece when I met Swayne; I remembered of meeting him at that time all along; I spoke to him; I had heard of Sheehy being killed; I heard nothing of Jack being in the country; I didn't hear of it until afterwards; I would like to see Jack acquitted if he was innocent.

HENRY ORTMAN'S TESTIMONY.

I live in Fort Wayne and have resided here about seventeen years; I was at one time deputy marshal of Fort Wayne; I work for Mr. Trauerman and have worked for him ten years; I know Jack Swayne; I saw him on the afternoon of the 5th of July, between 2 and 3 o'clock in front of Lintlaw's saloon.

Cross-examined—I go to dinner about 2 o'clock every Saturday, because I always pay the men first; I went to dinner when I met Swayne; and I know it was after 2 o'clock, between three and five minutes, probably; I went into Kiser's store for some eggs, and then went out after speaking a few words; have a distinct recollection of going home at 2 o'clock on that day; have not spoken to anyone about my testimony; I have known Jack ever since he was a little boy, and know all the family; I was a member of the fire department; I told you that if he was guilty I wanted to see him punished; have no watch; did not meet him on the 2nd of July; saw him the 4th, but I can't tell just what time it was; saw him before the race; George did not call at the store to tell me anything about this case, nor any of the Colericks; I don't know how they found out that I saw him.

Re-direct—There are a great many members belonging to the company to which I belonged.

GEO. HUMBERT'S TESTIMONY.

I am a policeman in this city; I am sometimes called "Big George"; I have been on the force five years; I know Lew Clark; I saw him on the night of the 4th, about 10.30 that night; he was intoxicated at the time and I had a few words with him; it was about the time that the dance closed up; I saw him the following Sunday; Clark told me then that he was intoxicated on the night of the 4th and apologized for his conduct and said that he did not remember what he said to me.

Cross-examined—I told Clark at about 10 p. m. to close up his dance; that it was getting obnoxious; he told me to go to hell; his wife told him not to be so hasty; he was sitting on a bench; before he sat down he was staggering, from which I judge that he was intoxicated; can't say how long that was before the stabbing affair, nor when that occurred.

WM. BRACKENRIDGE'S TESTIMONY.

I am sixteen years old; my father's name is Joseph Brackenridge; he is attorney for the Pittsburgh road; am acquainted with Jack Swayne; I was out at the fair ground on the 4th of July; I loaned him a saddle; he could not get the stirrup short enough and he borrowed a knife of one of the boys to cut a hole in the strap; he fixed the stirrup and gave it back.

Cross-examined—Don't know who gave him the knife nor what kind of a knife it was; this was about 1 p. m.

PETER L. LINE'S TESTIMONY.

Have lived in this city about fifteen years; was on the fair ground on the night of the 4th of July; I saw that defendant there on that night; was on the east side of the race track; saw him within about thirty feet of Webber's stand that night in company with two ladies and a gentleman; they were speaking together; (Mrs. Bonter here arose, but could not positively be identified by the witness as being one of the ladies); this was about fifteen minutes before the fire works closed; from there I went directly to the dancing platform and as soon as I got there I heard that a man had been stabbed.

Cross-examined—I have been away from here about four years altogether during the past fifteen years; I was in Canada about nineteen months of that time, and in Lafayette part of the time; I don't remember how long; I saw you and refused to tell you anything about what I knew about the case until after I saw the Colericks; I stated to you that I had seen Swayne about 9.30, but I did not say that I thought that the women who were with him were prostitutes; I told Sheriff Munson that I met Swayne at 9.30 that night, but I did not say that the women were prostitutes; but said that I was convinced before I left them that they were not prostitutes; I stood there about ten minutes, and after I left there I did not see Swayne again; I told Sheriff Munson at Hoffman's mill yesterday that I did take the women to be prostitutes; I said that there was a man with them; I never said that there was no man with them; it was ten minutes from the time I left Swayne until I reached the dancing platform; did not tell Munson that I would not tell him anything about the case until after I had seen the Colericks; I have been in attendance on this trial since yesterday; had no previous acquaintance with Mrs. Bonter, but have seen her on the street; think I saw her in Root's store last May; don't remember whether I was alone at the time, but think a fellow by the name of Theseas was with me; don't remember seeing her at any other place, but think I have passed her often; I am pretty well satisfied that Mrs.

Bonter is the lady who was with Swayne that night; thought an attorney of your ability would have more gentle wit than to ask me any such questions; but it's none of your business why I have a rag over my eye; I got it in a fight in Ewing's Grove last Tuesday night; some one of a b-h stepped up and hit me on the eye; I have been acquainted with John Swayne about thirteen years, but I have not spoken to him until last night for ten years; did not converse with Swayne at the fair grounds on the night of the 4th; I never spoke to George Swayne until yesterday; am not acquainted with Mrs. Walters or Mr. Bonter; am not a member of the fire department; never worked at the bus barn.

Re-direct—I was not aware that I was to testify in the case until I was subpoenaed; Mr. Stratton was the first person I spoke to about the case after I was subpoenaed; I never conversed with you until I came into this court room.

THOS. DOYLE'S TESTIMONY.

I have lived in this county about eighteen years; I am a member of the Fort Wayne police force; saw Lew Clark on the night of the 4th of July on the fair grounds; saw him before the dance was closed up; should say that he was intoxicated.

Cross-examined—I saw Clark about an hour before the dance was closed up; I saw him on the inside of the bar, and afterwards on the outside sitting on a bench; I conversed with him about five minutes; he talked like a man, would be was intoxicated; I say he was intoxicated because I am sure he was; he was about half asleep at one time when I saw him; he and Humbrecht had a few words, but I don't remember what they said.

At this point the court adjourned until Monday morning at 9 o'clock the judge instructing the jury to remain together, not read any papers nor converse with any one on the subject of the murder.

MORNING SESSION.

The trial was resumed at 9 o'clock this morning in the circuit court room.

SAMUEL ANDERSON'S TESTIMONY.

I live in Lake township, and have lived in this county for 38 years; am a farmer and know Jacob Wiest; he lived about three miles from me; heard of the drowning of Andrew Lingle; but did not lay out the body; saw Jacob Wiest at Lingle's; was at Lingle's on the night that Andrew was drowned.

The witness was asked whether or not Wiest asked him at the time and asked others whether there were marks and bruises on Lingle's body when taken from the water. The state objected and a lengthy argument followed, and the question was ruled out. The witness then continued his testimony. I did have some conversation with Wiest in regard to the marks on his body.

JOHN YOUNG'S TESTIMONY.

I live in Washington township; am acquainted with Wiest; have resided in this county for twenty-one years; am twenty-two years old; I was engaged with Wiest in clearing up lands for John Bass; this was last week; I then had a conversation with him while at work; it related to this present case; Wiest told me he expected to go to the penitentiary for the drowning of Andrew Lingle; * * I was a witness in court once before; my sister was the plaintiff in the case; the Colericks were her counsel; Hench prosecuted.

DAVID ANDERSON'S TESTIMONY.

I reside six miles west of this city; I am a farmer, and have lived there forty-six years; know Jacob Wiest; was at the house of Mr. Lingle on the night of the day that his son was drowned; Jacob Wiest made inquiry of me something about the marks on the body of Lingle; am acquainted with Theo. Lingle; we worked together last summer making hay; had a conversation with him regarding a conversation which occurred at his father's breakfast table on the morning after the Sheehy murder.

DR. VIRGIL'S TESTIMONY.

I reside in this city and have resided here for the past eleven years; I was acquainted with Andrew Lingle; I do not remember that he appeared before the grand jury as a witness; I had a conversation with him regarding his appearing as a witness; I don't know what he said to me regarding his testimony before the grand jury.

Additional testimony on this point was ruled out.
The defense named a number of other witnesses by whom they expected to prove the point that Andrew Lingle said that he knew that Rose Overly stabbed John Sheehy. The court overruled their testimony on that point, and the record being made so to show, they were not called.

JOHN ANDERSON'S TESTIMONY.

I testified for the state; I saw some women leave the fair ground the night that Sheehy was killed; they were near the lemonade stand; they were going towards the Washington street gate; they were half way between the gate and the dancing platform; they were about the size of Rose Overly, Mrs. Wiest and Elm Zink; knew Rose Overly; the other women were in court since; Jack Swayne was not with them; they were alone; I was going into the grounds and they were leaving; I passed within about 15 feet; when I got to the dancing platform Sheehy was just led up to the tree by Crow, and then left him to get a policeman.

Cross-examined—I had been taking a bass fiddle to John McMann's house; he lives in a lot adjoining the fair grounds; Barney Siebold accompanied me over; I went there about 7.30 and came right back; it was between 7 and 8 o'clock when I returned to the fair grounds; when I got back around and gazed on until the dance busted up; was coming from McMann's when I met the girls; the fire works had begun when I got there; don't remember what time it gets dark at that season of the year; the lights were lit when I got there; did

not say at McMann's; had no previous acquaintance with Rose Overly and Mrs. Wiest, nor Emma Zink; I saw Rose Overly before; saw her when she lived with James Hartman and I met her before; saw her at Tom Overly's; I went there to get him to haul a load of wood to our house; saw her there; had no conversation with her; there were several other girls there; passed them at a distance of fifteen or twenty feet; I have seen her since; saw her at Tom Overly's; at various places on the street; saw her on Calhoun street in June; had no conversation with her; saw her once on the corner of Calhoun and Main or Berry streets; am certain it was in June, because in July I was in the country; she was alone at the time, and so was I; knew her, but never conversed with her until I came into court; when they inquired which side I was on I told her I could not tell; it was on the north side of the fair grounds where I met them; it was about half way between the gate and the dancing platform; I was in the road when I passed them; there were not so many people on the road that I couldn't see any one at a distance of fifteen feet; the road was not blocked up; I was looking for my uncle; they were on this side of the little gate that is between the stand and the little gate; they were on the northeast side of the road that leads down to the track; just passed them and went on; don't know where they went; I spoke to you and Mr. Hench; told you that I saw them just as I tell you now; did not dance any; I drank one glass of beer; don't know what time the dance was closed; was only looking on, and was also looking for my uncle whom I saw there in the afternoon; saw Sheehy soon after he was stabbed; I don't know how long before he was stabbed that I saw Sheehy, probably about fifteen or twenty minutes; it was before I went to McMann's that Sheehy was stabbed; I fanned him; I saw Mr. Crow there as he took Sheehy up to the tree; I got the fiddle at the Washington street gate; I got it of Barney Siebold and went to McMann's and then went directly back to the dance; I did not see these women again after I met them; I ran all the way to McMann's, and walked back very fast; Geo. Swayne asked me whether I had seen Jack out there; I told him no; I hadn't; I spoke to no one else only the Colericks right here; I know Jack Swayne, and at that time had known Jack a long time; I am not very well acquainted with him; I did testify that I was out at the dance on the 4th, and did not know Jack Swayne; I said that because I was not acquainted with him at the time; I inquired of a boy who he was and he told me it was John Swayne; am not as well acquainted with him as I am with my own brother; have lived here for twenty years; have been doing nothing for about a month; before that I was at the *Gazette* office; am a chair caner by trade; have been to the reform school, and was sent there for breaking a girl's nose.

Re-direct—I am the same John Anderson who testified for the state; when I told them that I had seen those women out there they did not tell me that they wanted to prove that by me that I had seen Jack Swayne; that was before you (Colerick) spoke to me and I have had no other conversation with you about the matter; McMann lives in the adjoining lot to the fair ground; I got the fiddle at the fair ground where it before I left the platform for McMann's; returned the same way that I left the grounds; when I reached the dancing platform I learned that Sheehy had been stabbed; this was right after I passed the women; before I went to McMann's Sheehy said he wanted a glass of beer, and when I came back Sheehy was stabbed; the two women who spoke to me yesterday (Zink and Wiest) were two of the women whom I met.

Rose Overly was brought into court and identified by the witness.

MRS. ESTHER DRIBBLESS'S TESTIMONY.

I live near the Empire saw mill in Nelson's addition; I remember when Lingle was drowned; I saw him when he went down the last time; I have since then seen Dory Lingle; about seven or eight days afterwards we had a conversation regarding Andrew's death; we also spoke of Sheehy's death at that time.

The defense offered to prove by this witness that Andrew Lingle had stated that he saw Rose Overly, and that she had stabbed Sheehy, and that she had blood on her hand and that part of it got on Andrew's breeches.

Ruled out.

They also wanted to prove that she saw Wiest standing on the bank of the feeder putting on his pants while Lingle was drowning and that he was thirty feet away from him, and that Wiest made no attempt to save him nor made any outcry, which, together with several similar questions, was ruled out.

JOSEPH GARDNER DELAMARTE'S TESTIMONY.

I am a marble cutter; work for Underhill; am the foreman; know Jack Swayne; am a member of the City Band; we played at the fair grounds that night; the last tune we played was "Home, Sweet Home," just as the last piece of fireworks was exhibited; I went directly home when I left the music stand; I went through the foot gate to the right of the street car stand; I went to Broadway and then turned north on Broadway and when I turned that corner about midway on that block I met Jack Swayne; I know him; I came up alone; as I came down street somebody tapped my drum, and I looked around and saw Jack Swayne; I caught up to him; was following him.

Cross-examined—Helped two ladies down after we played the last piece; was perhaps ten minutes trying to get out; then went right down town to Broadway, and turned north on Broadway where I met Jack

Swayne; don't remember how long I have been acquainted with Swayne; probably about seven or eight months; don't remember when I met him again; am acquainted with George Swayne; am not acquainted with Mr. Walters; have never been to the Olympic with John Swayne; have played there a little over a month; have been married a few days; lived in New York before I came here; I was born and raised here; I am 26 years old; I lived in Chicago about four days; I was at Springfield, St. Louis, New Orleans, Boston, Liverpool, San Francisco, Sandwich Islands, and China; I was on a whaler; was a sailor; was employed as a sailor probably about two or three years altogether; was on the U. S. man-of-war, Portsmouth about two years ago; I married in this miserable city; I have a mother-in-law; spoke to no one excepting Mr. Colerick concerning my testimony in this case.

FREDERICK ROGERS'S TESTIMONY.

Live in Fort Wayne; my parents live here; my father's name is A. A. Rogers; I have lived here six years; I know the defendant and have known him for five years; I was at the fair grounds on the night of the 4th of July; I was with Swayne; I met him at about 6.30; we went to the top of the hill.

[The witness, by a diagram, explained to the jury the location of the grand stands and the place where he met the prisoner, Swayne.]

I was helping to carry the fireworks into position where they were shot off; Charles Kiser, Reub. Farris and Jack Swayne helped me carry the fireworks over to their place; the south gate is called the Jefferson street gate; that is about 200 feet south of Jefferson street; when we got done carrying the fireworks over we went right east to the agricultural hall, and from there we went to the Baptist eating stand where Jack went in and got something to eat; my mother waited on him; from there we walked in two different directions; spoke to several girls while Jack walked off about 100 feet; Jack sat on the back with his brother Jim while I spoke to the girls; spoke to the girls about an hour; then I went with Jack up to the beer stand with Mrs. Bonter and several others; the fireworks were then in progress; Jack and I walked off about 100 yards from the stand; at this time the band was playing "Home Sweet Home," then we met two young gentlemen from Decatur and we all four started for the gate; Swayne was with me until the fireworks were over; Swayne had on a soft slouch hat, a brownish coat and light pants (sensation); Swayne was with me from 9.30 until after the fireworks were over (pronounced sensation.)

The witness here explained the relative position of the stands, back, where they met, etc., on the diagram.

Witness resumed:

I do not know who was with Mrs. Bonter.

The morning passenger train from the west on the Wabash, arrived half an hour late this morning, caused by the engine breaking down at Roanoke.

A NARROW ESCAPE.

Just after the fast train on the Wabash last Friday night, left Peru, the side rod on engine 49 broke. The engine which was attached to the hind driver struck the cab just under the engineer, B. W. Chapman, throwing him head first on to the deck of the engine with the tool box, on which he was sitting, on top of him. He managed to get to the throttle and shut off the steam and put on the air brake, but some of the splinters struck the air brake and threw it off. By this time there was so much steam that Mr. Chapman could not again get to the brake or the whistle. He finally succeeded in getting forward on the engine and got at the whistle from the outside of the cab and called for brakes. The train ran nearly two miles before it could be stopped. One side of the cab was entirely torn out and otherwise injured. The train was running about fifty miles an hour at the time of the break. It will take from eight to ten days to repair the engine.
